TUESDAY MORNING, MAY, 18.

How ridiculous do the anarchists now appear. Each and every one of them was a hero in the eyes of the tery advertisements contrary to law. dissatisfied workingmen who saw in the labors of the miserable humans who spell God with a little g a means of their regeneration. These red-eyed fellows threw a bomb or two, the "art preservative" to continue his cried, "liberty!" and then scooted to their holes. They are simply miserable cowards. While looking through may have sense sufficient to respect the grates of the penitentiary they the laws of his country, at least. The will cry out "liberty" louder than

THE outlook for the democratic party in San Miguel county this year is more favorable than it has been for years. The elements of weakness among the republicans are many. The cause of democracy is sure to win here when every democrat appreciates the signs of the times and squares himself for vigorous effort. The county committee will shortly meet and formulate a plan of ac- made an evening paper, has again

matter, how will it be twenty-five years hence when competition in trade and strugle for existence even among a great many shall have become ten times fiercer than they are now? The lessons of the recent past must not be forgotten. We must have more and better schools; we reapportionment of the territory: must make more and import less; we Be it Enacted by the Senate and House must be more careful to equip men and women for a life struggle. We must also be more careful who comes to our shores.

esty of purpose of President Cleve-land shown in his administration of affairs for the people of the country than to notice his action of late in the matter of pension hills. When the matter of pension bills. When he believes a matter is wrong that comes to him from congress for his signature, the veto is promptly applied. There have been hundreds of claims passed by congress which the The Jeweler. pension office rejected. Hitherto presidents assuming that any bill congress might pass was right, have attached their signatures to them without further question. Not so with Mr. Cleveland. He examines every bill carefully and satisfies himself of its correctness before he signs it. The politicians may rave at the president, but the people, the voters, will not overlook the sterling qualities possessed by him and which are carrying him along into history as a man the people can trust and bet on as a sure winner.

THE settlement of all private land claims in New Mexico which now seem likely of speedy accomplishment, will be of inestimable advantage to northern New Mexico in particular. We want here, as in every other part of the territory, a development of every resource of the soil. Las Vegas with its facilities of trade and exchange will take on a new growth whenever the productive capacity of the thousands of acres about us are stimulated and the various enterprises that are germans to the settlement and cultivation of the ground are encouraged. The stationary condition of affairs all through this section, saye the development of the stock interests, has arisen as much from the uncertainty of titles as from any one source. Many acres of land would already have passed into active hands had the title question been a settled one. The coming five years B. B. BORDEN & CO. will see a remarkable development of this section in common with many portions of the territory. The evil of CONTRACTORS AND BUILDERS depending on Kansas and Missouri for the products of their soil cannot continue forever. We shall have to

county that now goes to those states CHARLES retained here at home. New Mexico since 1880 has built up not a few of supply our wants as well as to let Kansas do it for us. It is a mighty poor principle in the economic condi tions of a state to be wholly dependent upon another state for what is consumed by its people so long as it can all be produced at home. Our present plan of allowing the state of Kansas to feed us will impoverish us.

HERR Most and his astellites, the labor problem, and all things else of s public nature are cast into the shade in Cincinnati since the special grand jury of Hamilton county closed its work last week. The cause of reform has been exalted, and we hope the morals of the community benefited there by the indictment of Enquirer, and Murat Halstead and Deacon Richard Smith, of the Commercial Gazette, for publishing lot-The distinction of special mention that has been thrust upon these great lights in the newspaper world will be the "art preservative" to continue his KEG BEER. labors, hoping that when he shall become full of years and honors, he statute which caught them as transgressors reads:

"That whoever prints or publishes in any way an account of any lettery or scheme of chance of any kind or description, by whatsover name known, stating when or where it will be drawn, or the prizes therein, or the price of a ticket, or showing where such ticket may be obtained, may be fined not more than \$100."

A Reputable Newspaper's Opinion. Sliver City Enterprise (Rep).

THE LAS VEGAS GAZETTE, which paper passed into the hands of Messrs Pierce, Hardy & Warner, of that city, on the 1st inst., and was by the new firm tion that will inspire confidence in the minds of the people that the party has but to assert itself and the day is theirs.

changed its time of publication to the morning hours. The Gazette's appearance and pointies have undergone a radical change since the advent of the new proprietors. It has been reduced We have a population of 55,000,000 today. The increase is going ahead at an amazing pace. Soon America will have 100,000,000 people. If the labor problem is now so serious a matter than the labor problem is now so serious a matter than the labor problem. It certainly could not be in hands better qualified to make it a legitimate business proposition.
